Dear Brian,

Please see below a testimonial from Robt. Jones Holdings Ltd:

Boutique Citi Flowers provides a service that is professional yet personal, always willing to go the extra mile and assist with any special requests you may have. The flowers are always thoughtfully arranged and are beautifully presented, right down to the last detail. Arrangements are tailor made using flowers that specifically suit your surroundings – our weekly arrangements are always stunning and add a special atmosphere to our office. They also provide the additional service of personally checking and attending to your floral arrangements during the week to ensure their quality. For a company that provides that extra something special I would highly recommend Boutique Citi Flowers.

Regards,
